

TROJAN HORSE
NOVEMBER 29, 2012
STATE OF
PALESTINE

MOSHE
SISELSENDER

Israel was willing to cooperate in sharing Eretz Yisroel the land of Israel promised by God only for the Jews with the Arabs. Israel in good faith signed the Oslo agreement. The Arabs promised to recognize The Jews' right to Israel and not wage a war of incitement or seek any solution other than one mutually agreed.

For over ten years since the signing of the Oslo accords the Palestinians violated the terms and spirit of the Oslo agreement with the support complicity

and complete cooperation of the Europeans.

November 29, 2012 will remain a day of infamy when the Palestinians abrogated the Oslo agreement by turning to the United Nations to endorse their Trojan Horse into the heartland of Israel Judea Shomron , as well as , Jerusalem. The Palestinians openly declare their goal of making the entire land of Israel Juden Rein . They refuse to accept a Jewish Israel. They insist on the right of return of five or six million “descendants” of the Palestinians who ran away from Israel in 1948 to settle in the Jewish part of Israel from the Partition Plan of the United Nations.

In that way Jewish Israel would cease to exist. In the same manner that Hitler and the Nazis came into power in Germany in 1933 by democratic means. The Palestinians would then vote out a Jewish Israel. Yes, the Arabs state they are prepared to make peace with Israel providing the five million Arabs are allowed in and a Palestinian State is created in the entire area of Judea Shomron and Gaza. The Palestinians refuse to remain disarmed and forego the right of inviting other Arab countries to assist them in their goal of destroying Israel. The talks of forming an independent Palestinian State remained deadlocked because Israel refused to

agree

to commit suicide. For the last four years the Palestinians introduced a new strategy they refused to meet with the Israelis unless Israel agrees in advance to their demands. Then they would discuss other issues that they reserved the right to raise.

Israel of course did not capitulate to this new strategy. The Palestinians with the support of all the other Arab countries and the Europeans planned for several years to circumvent Israel's

demand for security and equal rights by forcing Israel to capitulate. The idea was

conceived of having the Security Council approve Palestine in the 1948 non defensible for Israel boundaries. That scheme was vetoed by the United States. Plan B was then put into effect-have the General Assembly of the United Nations approve Palestine in the non defensible for Israel boundaries of 1948. In the General assembly the Arabs and Europeans have an overwhelming majority. The date set was November 29, 2012. And it of course happened . The illegitimate conception gave birth to the Trojan horse the State of Palestine.

Israel of course refused to be bullied by the Arabs and Europeans .

If the Palestinians abrogated the Oslo agreements by taking unilateral action the Israelis could likewise take unilateral action. Thanks to the Palestinians Arabs and Europeans they were now free from the shackles of the Oslo Agreement. President Obama refused to honor the agreement reached with President Bush that the USA would accept the settlement blocks where over 500,000 Jews live since the war of 1967 that the Arabs attacked Israel to drive all the Jews into the sea but lost. Jordan lost control of

Judea Shomron and the Old City of
Jerusalem Egypt lost Gaza and the
Sinai desert. Saadat the Egyptian

president made peace with Israel and
received in return the Sinai desert.

The Palestinians and the other Arabs in
the Oslo Agreements could have
obtained parts of Judea and Shomron
would they agree to make peace with
Israel.

Instead of peace Arafat in 1990 waged
a guerilla war . 1000 Jews were killed by
suicide bombings stoning and shootings.

Israel cracked down .

Now in 2012 the Arabs are trying to circumvent the peace process by introducing the General Assembly of the United Nations .

Israel refused to agree to commit suicide. So now the Europeans who are the fathers of this illegitimate conception that gave birth to Palestine are introducing Plan C. Israel is to be threatened with isolation . If the carrots

do not work then sticks will be introduced. Israel is now facing a barrage of diplomatic rockets from all the Europeans who threaten to isolate Israel and become the 2012 South Africa until it will capitulate and agree to commit suicide.

If Israel agrees to commit suicide and accept the Trojan Horse in Judea and Samaria then the Europeans will not have to engage the Jews in a war. None of the Europeans are prepared to have one soldier lose their life for the Palestinians. They certainly are not willing to risk getting all their populations annihilated by atom neutron and hydrogen bombs that Israel possesses. Israel possesses the delivery system to turn the entire Europe

and all the Arab countries into one gigantic grave yard. If someone arises to kill you; preempt and kill him first. We will try to target the terrorists . However,

if collateral damage , unfortunately, involve innocent civilians then the Arabs and Europeans are responsible. It does not matter if one civilian gets killed or injured a thousand a million or a billion. LIFE IS VERY SACRED. ONE IS PERMITTED BY God's law to violate all laws to save a human life. This is translated to mean that if some one threatens to kill you, and the only way you can save your life is by annihilating all of Europe and all the

Arabs in all their countries you are permitted.

The time when Jewish blood was cheap is past. If Jews and Israel are threatened with annihilation this time all of Europe

will disappear.

If you are threatened with destruction you can use any means at your disposal and kill the one who threatens you.

Unfortunately, if the terrorists are hiding among civilians who are being exploited

as human shields, the terrorists bear total responsibility. All the Arabs and Europeans who support a Palestinian State and are trying to force Israel to accept such a Trojan Horse in their midst are terrorists.

All the Europeans for the past 2000 years have never had one day when they were not engaged in “ legal” theft and murder. All of them established their boundaries by war and expanding their kingdom to become great empires,

England became Great Britain when the sun never set in the English empire .The empire included North America-the USA and Canada Australia India and at home wales and Ireland.

The Pope in the 1500s gave England and France the right to conquer North America. Spain and Portugal were given the right to conquer South America and bring the uneducated backward natives to the Church to save their souls. England France Spain and Portugal proceeded to massacre 6 million natives.-the fore runner of the holocaust against the Jews. They succeeded in stamping out the Native American culture in both North and South America. They likewise killed hundreds of millions in Africa India China Australia.

The crosses of the English French Spanish and Portuguese countries was placed over the graves of hundreds of millions of the corpses. They were African, North and South American Indians, Chinese, Indian Australian New Zealand Natives and all other countries that the super race touched.

Today the attitude of all European countries has not changed. A leopard does not lose his stripes.

Russia expanded into the greater Russia by conquering all its neighbors. Spain and Portugal France and Germany

did the same. In 1500 and 1600 these named countries comprising no more than 400 million people conquered over 2 billion natives in Africa North and South America the Middle East Australia New Zealand China and India. All the European countries have their hands dripping from blood of the hundreds of millions of innocent civilians whom they killed. The greater the empire the more humans they killed.

It is my hope that reason prevails. Israel is willing to offer their hand in peace if the Arabs are willing to offer their hand and not commit unilateral action and stick to the terms of the Oslo accords.

If the Palestinians in collusion with the Europeans will take unilateral action Israel reserves the right to do likewise.

The Torah given by God consists of many strata.
. It has the literal meaning Pshat. -The Written law . Then there exists the Oral Law that today is the Babylonian and Jerusalem Talmud that is summarized by the Shulchan Aruch . Then there exists the mystical torah -Nistor the Kabbalah that is recorded in the Zohar and Commentaries. Then there is Drush. -insights that individuals through out the generations question the contents of the Written Torah and offer their own insights. This is what Aruch Hashulchon describes in laws of blessing in the morning. Jews make a blessing that God gave the Torah past tense . They also make a blessing that God gives the torah present tense. In every generation man is given an opportunity to add on to God's Torah by offering his own observations. These observations are called Drush.

I will now elaborate on some difficult passages on the Chumosh Tanach the Hhebrew Bible in Beraishis Genesis

In the first chapter of the book of Beraishis - Genesis “God worked and created the world in six days and rested on the Seventh day.” Question God is all powerful-Omnipotent. God does not get tired . Why did God have to rest?

Possibly an explanation could be the following. In the first Six Days God exercised only Divine Providence the first Six Days of Creation. The Six Days are Periods - a measurement employed by God. In human terms they could be the equivalent of zillion of years.

On God’s Seventh day another period of God’s years God did not use only Divine Providence , but mandated that man/woman participate in the continuous creations and maintenance of the universes that are being constantly created and destroyed by God as well as man/woman . That is the meaning of God rested. That

God made man/woman a partner in the creation of the universes. That is the meaning of the Talmudic statement that everyone must say because of me God created the universe. God makes man/woman a partner in creation . It is not only Divine Providence; but also the input of man/woman.

In the same sense , man/woman can create Torah -Drush by recording their observations and difficult passages or passages that beg for an explanation and present problems for the student of the Bible. As a matter of fact not only believing Orthodox Jews study the Bible ; but also non observant Jews , non Jews , Christian theologians , Muslim theologians Budhists and men /women of all faiths ,as well as, skeptics and atheists. We have Bible critics employing modern scientific technics and experts in ancient languages comparing the texts of the Bible to other ancient religious manuscripts and books who claim that the ideas of the Bible are present in other religious and ancient legal manuscripts dating back 4000 - 5000 years ago. There could have been borrowing one religion and culture from an other. There exists many schools of Bible study among Jews Christians and

Muslims that fall into two main categories traditional and reform. The traditionalists consider the words of the Bible God given and sacred, The Reform and Bible critics consider the Bible an anthology of many human authors over hundreds or thousand years that patched together what today is the Bible .

Each of the schools begin with the premise that mirrors their basic believes or disbelieves . Thus their questions certainly merit understanding and attention Their conclusions , however , are shaped differently by the believer as opposed to the the skeptic and atheist. The Bible then becomes another manifestation of the ideas and theology of the individual who studies the Bible. . Each of the queries of the skeptic and non believer and Bible critic have been examined carefully and answered . However the believer is satisfied while the non believer will remain unconvinced.

However Bible scholarship becomes richer from the wealth of questions and the attention that the Bible study elicits from a broad spectrum of the world population.

Now back to Drush and let us examine an other problematic area of the Bible . Again we will turn to Beraishis Genesis. Immediately after the Bible related that God creates the universe and creates Adam and Eve we are treated to the adventure of Eve and snake . The snake has a conversation with Eve and tempts her to partake of the fruit of the tree of wisdom. Eve hesitates at first informing the snake that God forbade man/woman to eat such fruit. The snake's logic prevails. Eve tastes the fruit and finds it delicious. Then she convinces her husband to eat. God then appears punishes both of them by driving them out of the Garden of Eden and both must now die. Would they have listened to God they could have lived for eternity.

This story is extremely problematic if taken literally. How can a snake talk?

The same question of an animal talking arises in the book of Numbers when Bilaam is hired by the King of Moav to curse the Jews. He sets out on his journey to the appointed place but in the middle of his journey his donkey lies down and refuses to move even after Bilaam strikes it several times. The donkey suddenly opens her mouth and addresses Bilaam why are you striking me.

“Don’t you know that I have always served you day and night? ” at that instant an angel with a raised sword appeared to Bilaam. Bilaam was surprised and was ready to cancel his trip to curse the Jews . However the Angel told him that he was free to proceed. However he would talk only those words that what God would place in his mouth. God forced Bilaam to bless the Jews instead of cursing them .

Since when do donkeys talk?

These are not my questions and they were not raised by Bible critics or the reform school of Bible studies. A Talmudic sage and great Jewish philosopher asks these questions. His name is Rav Saadia Gaon. He lived over 1000 years ago.

Rav Sadiiah Gaon replies that in both cases - Eve and Bilaam both individuals had dreams .that the snake talked and the donkey talked.

Reality was something else. Rav Sadye Goan’s interpretation is recorded in the Chumosh Mikoet Gedolot from one of the Commentaries

Another Commentary states that Eve knew the language of snakes . She was able to communicate with them in their language.

I favor the traditional interpretation that both the snake talked and the donkey talked.

The Talmud states that on the sixth day of creation God created the future mouth of the donkey to talk. Probably God likewise created all other miracles then even though they represent a change in nature for a snake to talk and a donkey to talk.

Rambam incorporates this Medrush in his Guide to the Perplexed where Rambam posits that the world we live in and the universe will continue to eternity and not change. If that is true how can one explain miracles. ? The answer is that miracles were already created in potential form at the twilight of the Sixth day of Creation. . So God decides when He wants to change the laws of nature with a miracle.

Rambam writes in his monumental legal Code Mishne Torah Book of Kings Chapter 12:2 that God never revealed the details of the future coming of the messiah.

We will not know the details until the advent of his coming. Only when Jews will be gathered from the four corners of the earth in a sovereign Jewish State will God reveal that the Messianic era has come. The details are presently unfolding.

So too, God did not reveal all the details of all the stories in the Bible that defy common sense and are open to interpretation.

We know by tradition and the testimony of millions of Jews and non Jews as to the historical truth of Revelation at Mount Sinai 3500 years ago when the Written and Oral Torah was given. We do know that the exodus from Egypt and all the miracles preceding and following the exodus are historically true. We do know that the Jews wandered in the desert for 40 years sustained and protected by God. We do know that they entered Israel 40 years later and conquered the land. After 400 years they built the first

Temple that lasted over 400 years. Ten tribes were exiled by Assyria all over the world. The remaining two tribes were exiled to Babylonia by the emperor Nevuchanezer. . The Persian Emperor Cyrus permitted them to return and rebuild the second temple after 70 years in Babylonia. The second Temple lasted over 400 years and was destroyed by the Romans. The Jews were exiled over the entire world. All these events are historical truth. However the other details of many of the stories in the Bible were not revealed and thus are open to different interpretations.

The greatest miracle of all the miracles is the fact that Jews survived 2000 years in spite of all the European hatred that lasts to this day. The fact that God did not enable Jews to establish a sovereign state Israel until 1947 is another proof of divine Providence. Would a Jewish state have been established before the discovery and use of the atom bomb in 1945 at the bombing of Hiroshima and Nagasaki in Japan that ended the war in the Pacific by forcing the Japanese to surrender , the Jews would never have been able to survive

Anti- Semitism is a 2000 year disease that is very much alive today .as it was in 1933-1945 the period of the Nazis and World War II- that resulted in the murder of 6 million Jews and 1/2 or 1 million Jewish children.

What the world seems to forget is the link between the murder of Jews and the murder of non Jews by the same murderers of Jews over 100 million non Jews lost their lives during the Nazi plague. Over 25 million Russians lost their lives during the Stalin and Communist plague from 1917-1980. Over 40 million Chinese lost their lives during the Chinese Communist rule from 1955-1970. Most of those in Russia and China starving to death from their failed experimentation of destroying traditional tested methods.

No more than 20 years following the establishment of Israel the Jews already had an atom hydrogen and neutron

bomb in 1967.

. 7 million Jews today can hold off 2 billion Europeans and Muslims. Such is Divine Providence of delaying the resurrection of the Jewish State and protecting them to enable them to survive the murderous hatred of the Europeans for 2000 years.

The lesson of Eve Adam and the snake is that boundaries exist and must be respected. Man/woman are not free to ignore boundaries. If they ignore the they may very well self destruct. . If a person jumps from a twenty story floor he/she will die. If a person engages in unsafe sex with no protection he/she may get sexually transmitted diseases. If a person over doses on drugs they may die. .

The Torah employs animals talking to demonstrate that such a person who ignores boundaries is dumber than an animal. Animals will escape danger and will not eat any thing that is poisonous. But stupid people do.

The same moral lesson is taught in the story of Bilaam .

. The Torah is an eternal code of ethics and morality. and a code of conduct for Jews and non Jews to achieve eternity and salvation to inherit spiritual ever lasting life.

The Torah also demonstrate that the righteous man/woman will be rescued by God.

The Talmud writes and Maimonides copies in The Guide to the Perplexed that the story of Eyav Job never occurred. It is a work of fiction. only written as a philosophical text to show how one man coped with tragedy. That at the end God compensated him for his faith in God.

I personally believe literally that all the stories in the Bible did occur historically

There exists a tradition that Eljah was the Biblical Pinchos the son of Aaron. and he lived 400 years . Another opinion is that he was the reincarnation of the soul of Pinchos. So we are presented with a difference of opinions who really was Elijah.

At the end we can remain believers in all the miracles and accept the fact that we can not fathom all phenomena in the real world so much less the mystical and miracles in the Bible. All life is a miracle.

By definition a miracle is supernatural and transcends understanding. Let us be humble enough to concede this reality.

God is quite happy and wants all religions as long as they respect the rights of others to differ. Otherwise, God would reveal Himself continuously and proclaim His absolute truth. Since God does not do that , it means that He does not really care. There exists more than one path to God.

Judaism similar to other faiths believes that it possesses absolute truth.

Judaism differs from other faiths that man women who do not accept our absolute truth -and from our vantage point are wrong -can ,nevertheless , achieve salvation following their truth. When humans follow their own truth and tradition that differ from Judaism they are all the chosen by God and will achieve salvation and reach the goal in life what God created them .

The above basic ingredient and central tenet of Judaism - that others who are dead wrong – have the right to remain wrong - is the secret of 4000 years of Jewish survival. It is the secret for a happy marriage

positive relationship with ones children and spouses of one's children neighbors and strangers. It is the secret of nations living peacefully with each other.

It is the secret to longevity.

Another basic principle every one must believe beshvilli nivro hoolom. God created the universe just for me. I am the smartest the most important the most noble individual in the universe . Would there exist no other creations God would still have created the universe just for me.

When man woman have this elitist image of self worth about themselves who can hurt them ? You can get hurt from equals . If the ones who hurt you are your equals , they would have the common sense not to hurt you. If they do not possess such common sense then they are not your equals .They are worse than animals . You do not get hurt from animals cockroaches and grasshoppers.

One must likewise appreciate the mandated need for

every living being certainly all humans man woman even animals to feel important. People kill -legally - in duels - when someone dares insinuate that they are not important. Every statement that you address to an other person has two components or elements: [1] the subject matter [2] his her ego . When a person makes a statement and demands or or refuses anything his/ her ego and reputation is on the line .

The Biblical Purim story in the Book of Esther is the perfect example.

Achiasvarus emperor of Persia usurped the throne of Persia. In order to gain legitimacy he married the deposed emperor's daughter Vashti who was one of the most beautiful women in the world. A few years later Achasvarus threw a banquet to exhibit his new found power by becoming legitimate and casting aside the stigma of usurper. He invited all the royalty of the ancient world and the most powerful depots and

military leaders all sexist males who considered all women as tools to gratify males weaknesses.

Achasvarus wanted to show that he could outdo all of them To prove his point he ordered Vahsti the deposed emperors daughter who granted him legitimacy to appear for all his guests in the nude

Vashti refused. Again Achasvarus ordered her to appear immediately . Again Vashti refused . The third time he ordered his soldiers to fetch her remove her clothes and present her for everyone to see. Vashti was dragged screaming and presented in front of Achasvarus. Vashti filled her mouth some very strong wine . Instead of swallowing the wine she walked over to Achasvarus turned and spit the wine in his face. The rest is history. Obviously Vashti did not survive very long afterwards. I confess that I edited this tale somewhat about Vashti spitting the wine in the face of Achasvarus. But the rest of the story does appear in the Book of Esther.

The moral of this story was that there were two interwoven elements . [1] the subject matter to have Vashti appear in the nude to have her beauty displayed in front of all his guests. [2] and the ego pride and reputation of power of Achasvarus.

Vshti failed to grasp the psychological element or elected to stand fast as one of the first feminists the protector and fighter for women's rights. She was the fore runner of Joan of Arc the protector and defender against male sadism . Perhaps she thought herself as a martyr defending the right of all women in the empire to revolt against the abuse of men against the weaker sex. Her sisters through out the ages achieved the same mission by using their cunning and greater wisdom than men possess and not defying their husbands.

Vashti as the legitimate Princess had little patience with the drunken brute- Ahasvarus . She was forced to marry him. Now all her anger erupted. She paid with her life for the expression of her true feelings.

The moral of this tale is that in all our dealings with our spouses we remember that when we argue it is not only[1] the subject matter ; but [2] the pride of our spouse that is involved. The prudent course most of the time even when your spouse is one trillion per cent

wrong is to agree with what your spouse wants. That is the secret of a lasting marriage.

When you feel that you are the most important person in the world , what does it really mean or matter to you to agree to the wrong course if that will make your spouse happy. A little common sense is the difference between a lasting marriage and a broken home.

Now who should agree the husband or the wife? The Torah says the husband should agree. Abraham was ordered by his main wife Sarah to throw out of Abraham's home Hagar his second wife and Yismuel Abraham's son with Hagar . The reason was because Sarah feared that Yismuel would bodily harm if not kill Isaac- Sarah's and Abraham's son. God agreed with Sarah. God told Abraham. "everything that Sarah tells you you are to listen " The Jewish way is to listen to your wife even if she is wrong. Doing that will build up her pride.
